_____ Monthly Total (read & complete section below too)	_____	+ \$20.00	= \$ _____

***We now offer the convenience of automatic bank withdrawal for processing monthly payments and eventually will convert to only that ***
 In the interim we will continue to accept monthly payments with cash or checks; however accounts will incur a \$3 monthly maintenance fee, be subject to a \$10 late fee if payment not received by the 10th of the month, and be subject to lose applicable discounts if payment is late more than twice during enrollment period. Since we do not send monthly bills, we greatly encourage using the convenience of automatic payments.
 Please indicate your choice below.

_____ Monthly Automatic bank withdrawal. You will need to fill out an authorization form.

_____ Monthly payments by check or cash. I understand the terms associated with this payment option. Initials: _____

Part 2

If you are using *ONLY* the multiple classes discount, use Section 1 below to calculate your discounted amount & enter it in the "Monthly total" space in bottom section on front page. .

If you are using *BOTH* discounts figure your adjusted monthly total in Section 1 then use it in Section 2 for calculating your prepayment discount.

If you are using *ONLY* the prepayment discount use Section 2 below to calculate your discounted amount & enter it in the appropriate space on front page.

SECTION 1

SECTION 2

HOW TO FIGURE MULTIPLE CLASSES DISCOUNT

HOW TO FIGURE PREPAYMENT DISCOUNT

1. Add all your monthly class totals together.
2. To figure your discount, add the first digits of each monthly amount together. The sum of these is your discount.
3. Now subtract your discount amount from your original total to get your "adjusted monthly total".
4. If you are paying monthly, enter this amount in "monthly total" space on bottom on front page.

10% off for prepaying entire school year (9 mos)

5% off for prepaying by semester: Sep-Dec /Jan-May

Note: If you are also using a multiple classes discount- calculate that first to get your "adjusted monthly total" to use here.

However, if you are *prepaying*, then proceed to Section 2 & use this amount to figure out your prepayment discount amount. → → →

1. Take your monthly class total from the other side OR your "adjusted monthly total" figured in Section 1 and multiply this figure by # of months you are prepaying for.
2. Multiply result from above by 0.90 if prepaying for entire year OR by 0.95 if paying by semester.
3. The result is your amount due today. Enter it in the corresponding space in bottom section on front page.

Example:

Ava's Ballet	\$ 50.00
Joe's Tap	+ \$ 40.00
Lily's Hip Hop	+ \$ <u>45.00</u>
Monthly Total	= \$135.00
Discount (5+4+4=13)	- \$ <u>13.00</u>
<i>Adjusted Monthly Total</i>	= \$ <u>122.00</u>

Example:

Monthly total or <i>adjusted monthly total</i>	\$122.00
Prepaying for entire year (9 mos)	X <u> 9</u>
Total	\$ 1098.00
Discount percentage 10%	X <u> .90</u>
Amount due:	\$ 988.20
